

The Online GP Cancer Update - Study Day Live

Tuesday 16th & Monday 29th March 2021 10:00 – 16:00

RM Partners, the West London Cancer Alliance hosted by The Royal Marsden NHS Foundation Trust, is making The GP Cancer Update Online Course available free of charge to GPs and other clinicians in primary care practices in NWL and SWL CCGs in the following boroughs: **Brent, Croydon, Ealing, Hammersmith and Fulham, Harrow, Hillingdon, Hounslow, Kensington and Chelsea, Kingston, Merton, Richmond, Sutton, Wandsworth and Westminster.**

What will I get?

Engaging content that delivers learning - lots of varied and dynamic teaching. Focussed learning activities to embed your learning.

Interaction - the opportunity to interact with the speaker, ask questions, take part in polls & quizzes and provide feedback.

Flexibility - tune into the live online event. Once registered, you can choose to view the course on 1 full day or over 2 half days, as the content will be the same on both. You can also re-watch the course on demand, at any time, for 12 months afterwards.

Course Handbook - A copy of the printed handbook posted to you, packed with additional content.

Helpful resources that last beyond the course - 12 months access to our online handbook and in consultation reference resource, covering 97% of the RCGP curriculum for primary care, at www.GPCPD.com.

CPD - Certificate of attendance for 6 hours of participatory learning.

Peace of mind - NO sponsorship taken from pharmaceutical companies.

What will be covered?

We'll guide you through the requirements needed to meet the changing demands of cancer in primary care. You'll gain a better understanding of the current cancer screening programs, plus we'll help you prepare for the new service specifications looming on the (ever changing) horizon and the 2020/21 QOF QI module and the PCN DES!

Course subjects include:

- Early diagnosis: pitfalls and how to avoid them –all the tools you need for QI
- Screening: What's new? What's our role?
- Cancer as a long-term condition: how best to support people after recovery
- New cancer treatments: what we really need to know
- Timely and effective anticipatory and supportive care, including management of common symptoms
